

Classroom control built into your favorite projectors

It's easy. Just look for the Crestron inside logo.

Take control of your classroom technology by simply purchasing your next projector with Crestron Inside. All your favorite brands, including Acer, BenQ, Dell, InFocus, Mitsubishi and Viewsonic, provide easy point-and-click control right from your laptop.

Built-in network connectivity provides instant remote technical support so your class is never interrupted, and broadcast messaging ensures a safe learning environment. Teachers can send an urgent memo to the main office, and administrators can alert teachers in every room with just one click. Schedule all the projectors throughout the school to turn off at the end of the day, saving energy and preserving lamps. All this power and peace of mind is included in many of your favorite projectors at no additional cost.

Look for the Crestron Inside logo before your next purchase to get complete classroom control.

For a complete list of projectors with built-in classroom control go to www.crestron.com/roomviewconnected
