

Microsoft® chose Crestron

TPMC-8L
Using Crestron
RoomView® Server
Edition Software

Microsoft® chose Crestron as its partner to manage AV and meeting room resources worldwide.

Crestron delivers the only solution that can monitor and control all the technology, including audio, video and lighting, in thousands of rooms around the globe on the Microsoft® network.

Microsoft® uses the Crestron **TPMC-8L** and **TPMC-8X** touchpanels for room control and scheduling, and connects all their rooms on the managed network with **Crestron RoomView® Server Edition** software. RoomView enables room scheduling using Microsoft Outlook® via Exchange Server directly from any Crestron touchpanel or any remote PC, and the ability to monitor and control all devices in all rooms throughout the enterprise.

Crestron and Microsoft®, two technology leaders, are working together to develop future digital media solutions to grow the AV industry. This certified partnership is the true convergence of two industries and two great companies that will create new opportunities, and make our industry the technology leader of tomorrow.
