

# Crestron

## Networked Enterprise Management

Crestron delivers the only solution that can monitor and control all the technology including audio, video, and lighting on a single platform.

Crestron RoomView® enterprise management software enables facility-wide monitoring and control of all lighting, network technology, multimedia distribution and presentation systems on a single, fully integrated platform. RoomView enables local and network room scheduling, troubleshooting, and emergency messaging. Designed as a “green” building, Comcast chose Crestron Green Light™ environmental management solutions to conserve energy, reduce costs and contribute toward LEED certification.

### Comcast Center Philadelphia, PA

Crestron integrates the technology in the 57-story Comcast headquarters including lighting, multimedia distribution and AV presentation systems.
