

# Power Meets Play

A touch screen is only as powerful as the system behind it

iPanel™

Tabletop dock

In-wall dock

## The only decision you have to make is Crestron

The iPad is the hottest touch screen today, but it's the engine behind the scenes that drives the home technology. Everyone has an app and a docking station, but only Crestron is a truly open, standards-based platform that delivers complete whole house control. So, why settle for anything less than Crestron – the most proven, powerful and scalable home system in the world. In addition to our charging in-wall and tabletop docking stations, we also proudly introduce the iPanel™. **The ground-breaking iPanel™ instantly turns any iPad into a full-function, wireless Crestron touchpanel. If you love the iPad, then Crestron is the only choice for reliable home control.**
