NETGEAR® modular power supply units provide power failover redundancy and expanded PoE budget potential for compatible network switches.

Power Redundancy

When plugged into a network switch, the CEN-SWPOE-PWS2000-ULTRA can be set up to provide a redundant power connection in the event of a failure of the primary circuit or power supply. Adding two CEN-SWPOE-PWS2000-ULTRA modules can provide redundant power to the CEN-SWPOE-52-ULTRA(-TAA) up to 1794 W.

Increased PoE Budget

When paired with the CEN-SWPOE-52-ULTRA(-TAA), adding two CEN-SWPOE-PWS2000-ULTRA modules increases the switch's PoE budget from 194 W to a maximum of 3314 W.

Quick Installation

The CEN-SWPOE-PWS2000-ULTRA slots directly into a modular power supply input of the CEN-SWPOE-52-ULTRA (-TAA) network switch. A locking tab ensures a secure connection, and a pull handle makes swapping modules easy.
