Install up to four Horizon® 2 devices side-by-side in a US multigang electrical box with a compatible [HZ2-FP-G](#) series faceplate. When multiple devices are installed in a 2-, 3-, or 4-gang faceplate, the buttons on the devices are aligned to form one continuous control surface.

Horizon 2 Faceplates Supporting Decorator-Style Devices

Decorator-style faceplates (FP-G-D series) accommodate a wide variety of Decorator-style third party devices alongside Horizon 2 devices. They are offered in textured white, textured black, and textured almond in a variety of configurations. Nonsymmetrical faceplates can be reversed to support the decorator-style device on either side of the Horizon 2 device (s).

NOTE: Crestron recommends using Schneider Square D X Series wiring devices for the best match to Horizon 2 colors and textures.
