The Crestron Flex P100 is an advanced voice-over-IP desk phone that integrates seamlessly with your existing infrastructure. It takes a new approach to the notoriously complex and disjointed world of telephony, taking advantage of the Crestron platform to bring Skype® for Business software and Microsoft Teams™ software functionality to every individual workspace. The comprehensive physical keypad is complemented by a high-resolution 7” color touch screen display to deliver an intuitive and consistent user experience, all in a sleek package that complements any office décor. Zero-touch provisioning and centralized management via the Crestron XiO Cloud™ platform delivers tremendous time and cost savings.
