**Simple. Secure. Scalable. Consistent.** Crestron’s open Unified Communications & Collaboration Solutions support any web collaboration application or natively run the most popular third-party UC applications including Microsoft Teams™, Skype® for Business, and Zoom™. Built on the Crestron XiO Cloud™ IoT-based platform, you can deploy, manage, monitor, and evolve thousands of Crestron devices from a single dashboard.

Crestron UC and collaboration solutions come in several forms, but all bring a consistent user experience, regardless of the type of space in which they’re deployed. That means more uptime and less strain on your support resources. Crestron also uniquely provides capabilities beyond the typical UC solutions, including digital signage, wireless presentation tools, advanced space analytics, networked audio and video distribution, and room scheduling integration.
P100 SERIES

**NUMBER OF PEOPLE:** 1 to 5  
**IDEAL ROOM TYPES:** Phone Booth | Workstation | Benching | Reception | Executive Office  
**NATIVELY SUPPORTS:** Microsoft Teams | Skype for Business*

The Crestron Flex P100 is an advanced voice-over-IP desk phone that integrates seamlessly with your existing infrastructure. It takes advantage of the Crestron platform to bring Skype for Business and Microsoft Teams functionality to every individual workspace. Crestron Flex P100 Series delivers an intuitive and consistent user experience in a sleek package that complements any office décor.

M100 SERIES

**NUMBER OF PEOPLE:** 4 to 20  
**IDEAL ROOM TYPES:** Huddle Room | Conference Room | Executive Office  
**NATIVELY SUPPORTS:** Microsoft Teams | Skype for Business | Zoom | Open UC*

Crestron Flex M100 is the core of modern meeting spaces. It provides everything you need to instantly and securely call, present, and videoconference using any application or dedicated Microsoft Teams, Skype for Business, or Zoom Rooms variant. Simply plug in your laptop or connect wirelessly from your laptop or smart device. You’re in business.

B100 SERIES

**NUMBER OF PEOPLE:** 4 to 20  
**IDEAL ROOM TYPES:** Small Conference | Medium Conference | Large Conference | Executive Offices  
**NATIVELY SUPPORTS:** Microsoft Teams* | Skype for Business | Zoom

Designed for use with Microsoft Teams, Skype for Business, and Zoom Rooms, the Crestron Flex B100 is a front of room solution in a wall-mount soundbar form factor. With a stunning practical design and world-class audio quality, Crestron Flex B100 delights users with crystal clear speech during calls and stellar microphone coverage. An integrated 4K high-definition camera provides auto-zoom, people-counting, and lifelike image quality.

C100 SERIES

**NUMBER OF PEOPLE:** Unlimited  
**IDEAL ROOM TYPES:** Custom Spaces | Conference Centers | Divisible Rooms | Boardrooms | Auditoriums  
**NATIVELY SUPPORTS:** Microsoft Teams | Skype for Business | Zoom*

The Crestron Flex C100 Series gives you the flexibility to build your perfect space and still deliver a flawless meeting experience. It includes everything you need to successfully integrate with your existing room design. As Crestron’s flagship integrated UC product, the Crestron Flex C100 Series brings touch control to the enterprise, ensuring a consistent, simple experience in every space, from the boardroom to the auditorium.

*Indicates software shown
The Crestron Flex P100 is an advanced voice-over-IP desk phone that integrates seamlessly with your existing infrastructure. It takes a new approach to the notoriously complex and disjointed world of telephony, taking advantage of the Crestron platform to bring Skype® for Business software and Microsoft Teams™ software functionality to every individual workspace. The comprehensive physical keypad is complemented by a high-resolution 7" color touch screen display to deliver an intuitive and consistent user experience, all in a sleek package that complements any office décor. Zero-touch provisioning and centralized management via the Crestron XiO Cloud™ platform delivers tremendous time and cost savings.

**KEY FEATURES**

- Natively runs Microsoft Teams and Skype for Business with one-touch to join functionality
- Connects to network with latest security standards
- Exceptional HD sound quality for crystal-clear speech
- Full-featured keypad and high-resolution 7" color touch screen
- Place or receive calls using handset or speaker.
- Zero-touch provisioning and centralized management from Crestron XiO Cloud
- Optional USB and Bluetooth compatibility (Crestron Flex P110)
