Impress Software

Crestron Custom Engraving Software

The Impress Custom Engraving Software provides custom engravings for the latest Crestron® engravable products, including remotes, keypads, signs, and more. The software is backwards compatible with Crestron Studio® software and engravings created with the Crestron Home® OS. The software uses engraving technology to ensure what is designed on-screen matches the final product the customer receives.

Design options include:

- Engraving icons
- Mixing fonts on a single line
- Styling text with emphasis, alignment, and font size

NOTE: Available engraving options may vary depending on the Crestron product.

Software Requirements

Minimum Computer Requirements

Operating System	Windows 10® and 11; Compatible with 64-bit (recommended) or 32-bit platforms
CPU	2 GHz or faster (multi-core recommended)
Memory	4GB RAM minimum (8 GB RAM recommended)
Storage	1GB
	NOTE: Additional space is required to store engraving projects.
Display	1920x1080 resolution or higher recommended

⚙ Installation

Use the following procedure to install Impress software.

> **NOTE:** If Microsoft® .NET software is not already installed on the computer, you will be prompted to install it before continuing with the Impress installation.

1. Download the latest Impress installer package from the **Software & Firmware** resource page at
   Crestron.com/Support/SoftwareFirmware or by using Crestron MasterInstaller software.

2. Launch the Impress installer.

   If Microsoft .NET is not installed on the computer, the **Setup** window displays prompting the Microsoft .NET installation.

   Setup   ✕

   ❓ You must install Microsoft .NET 7.0.

   Crestron Impress requires that Microsoft .NET 7.0 be installed.
   Microsoft requires you to install it directly from their download page.
   Please run the Crestron Impress install again, after you complete the
   .NET install. Thank you for your patience.

   Proceed to the Microsoft download URL?

   [Yes]   [No]
   ---

   a. Select **Yes** to install Microsoft .NET. The download website opens in the default web browser.

      > **NOTE:** Impress will not run without Microsoft .NET installed.

   b. If Microsoft .NET does not download automatically, select the link to download it and run the installer.

Crestron Custom Engraving Software

c. Once Microsoft .NET is downloaded, open the program.
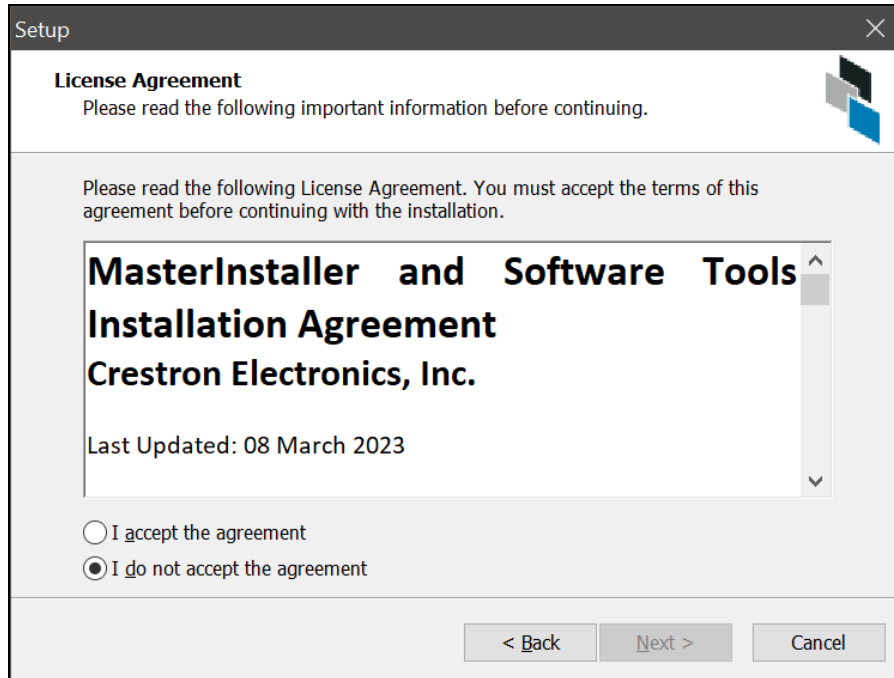

d. Select **Install** to run the installer.

e. When the Installation is finished, close the window.

f. Relaunch Impress.
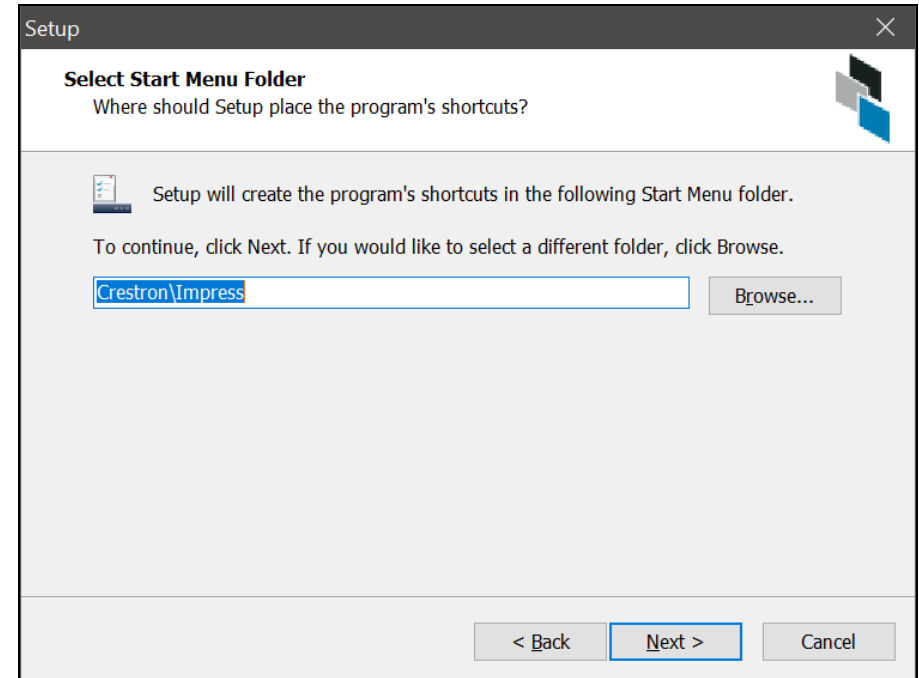

3. Select **Next** to start the Impress Setup Wizard.

4. Accept the **License Agreement**, and select **Next**. Select **Back** to view the previous window.
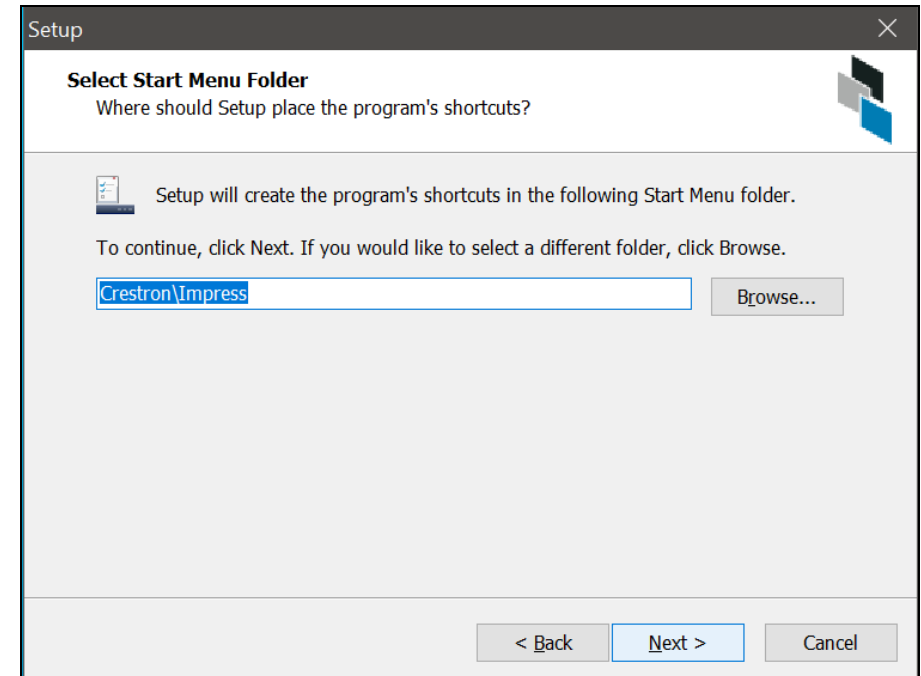

5. Select **Next** to keep the recommended program location, or click **Browse** to install Impress in a different location.
