SW-MOBILITY

Mobility License for Crestron Software

The Crestron® SW-MOBILITY is a software mobility license that allows a 3-Series® or 4-Series™ control system to support mobile room control for a TSW-60 series or TSW/TS-70 series touch screen via the Crestron ONE™ app.[1,2]

Licensing is applied on a per-control system basis, making it easy to determine and adjust how many licenses are required for an installation.

Simple Management

SW-MOBILITY licenses are easily managed and deployed using Crestron Toolbox™ software. After receiving your licenses, simply add them to your control systems via the licensing function in Crestron Toolbox.

Licensing Structure

SW-MOBILITY licenses are applied on a per-control system basis, making it easy to determine how many licenses are needed across an enterprise. Each license is applied to a single control system that supports the licensed functionality.

> For details on obtaining mobility licenses, refer to the mobility license registration form.

Refer to the following table to determine whether your desired solution requires a Software Mobility License. A Software Mobility license is required if you are deploying at least one of the following solutions that lists "Yes" for any of the control system columns.

Software Mobility Requirement Table

	3-Series® Control System	4-Series™ Control System	Crestron Virtual Control (VC-4)
Crestron Touch Screen with a Crestron HTML5 User Interface Project	No	No	No
Crestron ONE™ App with a Crestron HTML5 User Interface Project	**Yes**	**Yes**	No
Mobile Room Control via Crestron ONE™ App	**Yes**	**Yes**	No
HTML5 Web XPanel via Web Browser (without Crestron Fusion® Software)	No	No	No
HTML5 Web XPanel via Web Browser (with Crestron Fusion® Software)[3]	No	No	No

Available Accessories

For supported accessories, visit the product page at
www.crestron.com.

Notes:

1. The MC3 and TPCS-4SM control systems are not supported by the Crestron ONE App. Refer to the Crestron ONE release notes for all currently supported control system models.

2. TSW-60-NC, TSW-570, TSW-570P, TSW/TS-70-GV, and TSW/TS-70R series touch screens are not supported by the Crestron ONE App. Refer to the Crestron ONE release notes for all currently supported touch screen models.

3. This functionality is accessed via the eControl tab in Crestron Fusion® software running version 11.2.0006.0063 or later. The HTML5 Web XPanel functionality can be used in older versions of Crestron Fusion software; however, a Software Mobility license is required.
