

SW-RMC3-10PROG

10 Program MPA Support License for RMC3, MPC3, and MC4 Series

The Crestron® SW-RMC3-10PROG is a software license that activates the Modular Programming Architecture (MPA) feature of an [RMC3](#) 3-Series® Room Media Controller, an [MPC3 series](#) 3-Series Media Presentation Controller, or an [MC4](#) series 4-Series Control System.

The Modular Programming Architecture feature allows a supported control system to run up to ten programs simultaneously. Programmers can develop and run independent, device-specific programs, enabling each program to be optimized for a specific function and allowing for changes to be made to one program without affecting the whole system.

To obtain an SW-RMC3-10PROG license for a supported control system, complete the [Request for SW-RMC3-10PROG License](#) form.

For support, contact license@crestron.com.
