

IV-SAMA-AMCUBE-1-12

Crestron Automate VX AutoMeasure Cubes

The [IV-SAMA-AMCUBE-1-12](#) includes 12 AutoMeasure cubes for use with [Automate VX2](#) systems. The IV-SAMA-AMCUBE-1-12 AutoMeasure cubes are designed to reduce Automate VX2 commissioning times by simplifying system, camera, and microphone measurements.

Each cube attaches to a corresponding intelligent array microphone using the included [IV-SAMA-AMCUBE-TAPE](#). Once the AutoMeasure function is performed on the Automate VX2 system, the cameras detect the markers on the AutoMeasure cubes to determine camera and microphone positions for the Room Configuration (.1brd) file.

NOTE: This product requires an Automate VX2 system running firmware version 6.5 and above.

Included Accessories

IV-SAMA-AMCUBE-TAPE

Crestron Automate VX AutoMeasure Tape
