

IV-SAM-VXS-1B

1 Beyond Automate™ VX Voice-Activated, Multi-Camera Switching Solution

- *Automatic camera switching based on the active speaking participant*
- *Switches between multiple cameras for broadcast-style production*
- *Supports 3 SDI and 5 NDI sources; outputs SDI and NDI streams*
- *Intelligent video algorithm follows the conversation, avoiding excessive camera switching*
- *Easy configuration with the browser-based Intelligent Video Room Designer tool*

The IV-SAM-VXS-1B Automate VX is a voice-activated camera-switching solution that brings the full multi-camera studio experience to meetings, town halls, and classrooms. Automatic camera switching and movement tracks the location of the active-speaking participant. Automate VX provides built-in recording and streaming capability along with outputs for video conferencing.

Professional Services

The 1 Beyond Automate system requires the purchase of [1 Beyond Camera Systems Remote Professional Services](#). Remote Professional Services provides dedicated technical support for the remote deployment of Automate VX Voice-Activated Multi-Camera Switching Solutions.

Visit [IV-PROSERVICE-1B](#) for details.

NOTE: For Crestron Intelligent Video Certified Engineers (IVC-E) planning to self-deploy and self-validate a purchased Automate VX system, the purchase of Remote Professional Services is optional, subject to verification by Crestron. Visit [IV-PROSERVICE-1B](#) for details.

Improved Video for Meetings

See who is speaking with close-up camera shots. Clean production-style camera switching provides a more engaging experience for remote participants or viewers.

Voice-Activated Switching

The hands-free operation uses data from the room microphones to locate the active-speaking participant. Camera switching is determined by the microphone type used.

Adapts to Room Sizes and Uses

Cameras can be located throughout the room for the best camera angles. Room configurations can be preset to accommodate different furniture layouts with a single button push.

Graphics, Titles, and Layouts

Combine multiple sources, superimpose titles, and add custom graphics. A graphical user interface allows for custom layouts, not just picture-in-picture or side-by-side.

RESTful API for Crestron® and Third-Party Control

Enable auto-switching, record and stream, and change room configurations or layouts using a Crestron® control module. An adaptable API is available for customizable user interfaces on third-party control systems.

Conference, Stream, and/or Record

In addition to high-quality output for hard or soft codecs, the system has a built-in encoder and recorder to enable multiple live streams and over 100 hours of recording.

Room Designer Web Interface

The [Intelligent Video Room Designer](#) tool provides the ability to design and configure meeting spaces. The browser interface is used to help choose the best position for a variety of cameras and microphones within a room.

Specifications

Automate VX Capabilities

Titles, Graphics, Layouts	Titles, logos, backgrounds can be added, Easy-to-use graphic designer to create any multi-source layout
Program Record	MP4 file (H.264 codec). User-selectable bitrate up to 10 Mbps
Recording Capacity	Records to internal 500 GB SSD storage
Streaming Encoder	Can stream to any RTMP server. Presets included for popular CDNs
NDI Support	For inputs and program output
Camera Control	Can control Crestron 1 Beyond PTZ cameras and tracking cameras over IP. For a complete list of compatible cameras, refer to Automate VX: Compatible Cameras .
System Control	RESTful API over Network (TCP) for third party control

IV-SAM-VXS-1B

1 Beyond Automate™ VX Voice-Activated, Multi-Camera Switching Solution

Compatible Codecs	Output via HD-SDI (SDI to HDMI® converter included) for connection to external conferencing codec or via USB adapter to external systems running Microsoft Teams® software, Zoom Rooms® software, etc.
Configuration	Browser-based configuration with secure log-in and user administration. Customizable preset options for sleep, wake, and scenario actions

Connectivity

Network Ports	2x RJ-45 Gigabit Ethernet
----------------------	---------------------------

Video

Video Inputs	3x HD-SDI Inputs 5x NDI Inputs 1x USB Type-A Input
Video Output	Up to 1080p60, 1x HD-SDI (SDI to HDMI® converter included); NDI® HX and virtual webcam output
Desktop Output	4x Mini DisplayPort™ output for setup and maintenance

Audio

Audio Input	3.5 mm Line In, USB, Dante® input
Compatible Mic Systems	For a list of compatible mic systems, refer to OLH Article 1001562 .
Compatible DSPs	For a list of compatible DSPs, refer to OLH Article 1001563 .

Power

Power	400 W, 100–240VAC
--------------	-------------------

Dimensions

Height	3.5 in. (89 mm)
Width	16.75 in. (425 mm)
Depth	14.5 in. (368 mm)

Weight

14 lb (6.35 kg)

Available Accessories
