Crestron Flex C-Series - Integrator Kits 12

Room Scheduling 14
IoT-based Platform 16
Solutions Matrix 18
Crestron Flex. One solution that works. For everyone. Everywhere. Everyday.

**Start the Day**
Check calendars. Connect with coworkers. And do it all with one consistent experience.

**Book an Impromptu Meeting**
See which huddle room is open and book it on the spot. Crestron Room Scheduling touch screens connect to your calendaring system.

**Weekly Team Status Meeting**
Share content. Connect teammates. Transfer calls from cell to tabletop. The Crestron Flex M-Series tabletop conferencing system does it all—with just one touch.
Easy on the Bottom Line
Change platforms, add products or deploy room systems, Crestron Flex gives you total flexibility, affordability and efficiently.

Global Check-In
Make sure everyone sees and hears all with the Crestron Flex B-Series Smart Soundbars. One touch connects everyone in the room with perfect picture and crystal clear audio. Let the meeting begin.

Late Day Training
Join a session. Lead a class. Share important company-wide updates. Crestron Flex C-Series Integrator kits make complicated spaces easy with an intuitive interface.

Easy to Deploy and Manage
Every solution is easy to deploy, with few wiring requirements. And simple to manage, monitor and evolve via Crestron XiO Cloud™.

Easy to Use
Crestron Flex delivers one-touch simplicity in every room. One seamless experience for everyone, everywhere.
Simple to deploy. Easy to use.

From IT to C-Suite—it’s just this simple.

- **One Consistent Experience**
  Engineered to deliver flawless video, crystal clear audio, and instant sharing.

- **One-Touch Simplicity**
  Any room, anywhere, every presentation is just one click away.

- **One Platform**
  Every device deployed, managed, and maintained on one cloud-based platform built in Microsoft Azure.

- **One Connection**
  24/7 support anywhere and everywhere you may be.

Only Flex Can.

One solution that works with what you have today. And what you need tomorrow.

**Bring Your Own Device**

Connect any laptop via a USB and Crestron Flex supports any of the most popular collaboration platforms. Now that’s teamwork.

- Microsoft Teams
- Skype for Business
- zoom
- slack
- HipChat
- Chime
- GoToMeeting
- Cisco
- Quip
Microsoft® Teams is natively integrated into every Crestron Flex product. Giving you the flexibility to create a complete room system or simply add a device.

Choose a Built-In Solution

Get the ease of Microsoft® Teams or Zoom software natively integrated into Crestron hardware.

Microsoft® Teams

Microsoft® Teams is natively integrated into every Crestron Flex product. Giving you the flexibility to create a complete room system or simply add a device.

OR

Zoom

Crestron Flex offers the simplicity of Zoom Rooms software built right into every device. Now that’s simple.
Desktop Phone

**Crestron Flex P-Series**

Initiate a conference call on your cell. With one touch move the call to your desktop to free your computer. Search contacts. Check status of your projects. Find your next meeting. It’s not a phone; it’s a hub for collaboration between peers, and between devices. And Crestron makes it work seamlessly.

Room Scheduling

The modern workplace is fast-paced, flexible, and dispersed. You need a scheduling platform that not only keeps up with you, but makes everyone more efficient, connected, and collaborative across all spaces while meeting your booking requirements. Crestron makes it simple and convenient to locate and book available meeting spaces from wherever you are; on your mobile, outside the room, or inside the room. The system directly connects to your software platform, so people can book rooms on the spot. And the system is intelligent enough to return rooms to inventory when employees no-show, thereby optimising usage.

A smart workplace starts with a smart scheduling system.
Compatible with most popular calendar and scheduling software systems.

Winner of the 2018 Microsoft Global Partner of the Year Award for IoT, Crestron XiO Cloud is a revolutionary IoT-based service that enables you to securely deploy, proactively manage, monitor, and evolve workplace technology anywhere in the world through a standard web browser, and reduce associated complexities.

Hosted on the Microsoft Azure® IoT platform, and natively built into Crestron products, Crestron XiO Cloud delivers up to 90% reductions in installation time and dramatic improvements in device uptime. Most routine maintenance tasks, such as logo updates, can be performed from anywhere, automatically. Data gathered by Crestron XiO Cloud enables you to match new technology investments to actual usage and optimise your budgets.

Learn more: crestron.com/xiocloud
48% of organisations say they adopted cloud-based services because it’s a better cost model compared to traditional deployment methods.

DEPLOY QUICKLY
Reduce installation time by up to 90%

MANAGE REMOTELY
Update settings and firmware from anywhere via the centralised dashboard

MONITOR INSTANTLY
Resolve events remotely to improve device uptime

EVOLVE CONFIDENTLY
Make sure your workplace technology supports how people work

Successful Deployments

These companies and many more rely on Crestron to drive their modern, intelligent workplace.

See their stories and more at crestron.com/Casestudies
Crestron is the world leader for Smart Building Technology. Our ecosystem of UC, network video, audio, and control products is designed to help drive greater efficiency and productivity across the modern workplace while simplifying monitoring, management, and control at a global scale.

Crestron technology empowers the world’s leading commercial enterprises and universities, as well as government agencies, to be more effective and successful throughout the day, every day. Crestron was recognized as the Microsoft 2018 Partner of the Year based on the innovative way the Crestron XiO Cloud technology provisioning and management service, built on the Microsoft Azure platform, ties together the E2E cloud to device experience to improve the modern, intelligent workplace.
