

Crestron touch screens
or consumer tablets?

IT'S NOT EVEN CLOSE.

CRESTRON TSW TOUCH SCREENS	VS.	CONSUMER TABLETS
✓	Reliable wired network connection	✗
✓	Dedicated network power	✗
✓	Easy mass setup and deployment	✗
✓	Dedicated device	✗
✓	Enterprise-grade security	✗
3 Years	Standard warranty	1 Year

Consumer tablets are not interchangeable with Crestron TSW touch screens. Here's why:

CONNECTIVITY

Unlike consumer tablets, which rely on unreliable Wi-Fi® connectivity, TSW touch screens employ a simple, rock-solid Ethernet connection, which contains data and power. One wire, no worries.

POWER

If you use tablets, you know all too well that keeping them charged is always in the back of your mind. (And did you know that overcharging could actually be dangerous?) TSW touch screens use PoE (Power over Ethernet) technology, so charging is never a concern. All operating power comes right through the network cable allowing for centralized power management.

SETUP AND DEPLOYMENT

Consumer tablets have to be configured, deployed, and updated one-by-one. It's a tedious, time-consuming task, especially when you have a lot of them. Got a web browser? It's all you need to easily deploy and manage thousands of TSW touch screens anywhere in the world.

DEDICATED VS. MULTI-PURPOSE

Consumer tablets are multi-purpose mobile devices vulnerable to theft – or, at the very least, people wandering off with them. Then they have to be tracked down – a big hassle, especially when you need it to start a meeting. Conversely, TSW touch screens are enterprise-grade devices designed for room control and management. They securely mount to a wall or conference table, so you don't have worry about them disappearing.

SECURITY

It's impossible to overstate the importance of security these days. Unlike consumer tablets, TSW touch screens use enterprise-grade security features that protect your mission-critical networks.

WARRANTY

TSW touch screens are backed by a comprehensive 3-year standard warranty. The typical warranty period for consumer tablets is just 1-year.
