

Crestron Zūm® Lighting Configuration App

The Crestron Zūm® Lighting Configuration App (CRESTRON-ZUM) enables management of Zūm spaces and devices via a Bluetooth® connection on an Apple® iOS® or Android™ device. Simply pair a mobile device running the app with a [ZUMMESH-NETBRIDGE](#) or ZUMLINK-KP to manage Zūm spaces or individual Zūm device settings. Download the Crestron Zūm app from the [Google Play™](#) or [Apple App Store®](#) online store.

Zūm Space Management

Zūm spaces are manageable via the Zūm lighting configuration app. Open the Crestron Zūm app and all nearby Zūm spaces appear. Connect to a Zūm space and easily control and manage the space's name, security settings, and network configuration.

Zūm Device Management

Settings for individual load controllers, sensors, and keypads are modifiable from the Zūm lighting configuration app. Dimming levels, sensor sensitivity, and lighting scenes are all configurable through an intuitive onscreen procedure.

Bluetooth Connectivity

The Zūm lighting configuration app uses Bluetooth to easily pair with a [ZUMMESH-NETBRIDGE](#) for wireless installations or ZUMLINK-KP for wired installations. The signal strength between a mobile device and a Zūm device is displayed on the app's home screen for user convenience.

Specifications

Compatible Devices

Apple iOS	Requires Apple iOS 14.0 or later
Android	Requires Android OS 7.0 or later

Communications

Bluetooth	Bluetooth low energy, Version 4.0; Pairs with a compatible Zūm device
