

DIN-EN-6X18-HC-5OPEN

DIN Rail Enclosure with 6 DIN Rails and 5 Cover Openings

- *DIN rail enclosure for the DIN-THSTAT thermostat and other DIN modules (sold separately)*
- *5 Cover openings provide access for up to 10 DIN modules (9M wide) through the cover*
- *6 DIN rails, 18M wide*
- *Raised DIN rails allow for additional wiring behind the DIN rails*
- *Elegantly finished black cover*
- *Blank cover plates (3M and 9M wide) supplied to cover unpopulated cover openings*
- *Hinged cover for easy access to the equipment wiring*
- *Fire enclosure to separate Class 1 and Class 2 device installation and wiring*
- *UL® Listed*

The Crestron® DIN-EN-6X18-HC-5OPEN is a UL® Listed enclosure that provides an attractive centralized mounting solution for the DIN-THSTAT thermostats and other DIN rail modules. An elegantly finished black cover matches the aesthetic of the DIN-THSTAT thermostat and provides a professional look and feel. A hinged cover provides easy access to equipment wiring while openings in the cover provide access to the DIN modules through the cover.

DIN Rail Mounting

The DIN-EN-6X18-HC-5OPEN enclosure utilizes 18M wide DIN rails to install up to 2 DIN modules (9M wide) per DIN rail.

Raised DIN rails allow access to the DIN module's control surface through the cover openings. The DIN-EN-6X18-HC-5OPEN provides 6 DIN rails - 5 raised DIN rails with the ability to install 10 DIN modules (9M wide) and 1 normal-height DIN rail (18M wide) located in a separate fire enclosure.

Separate Fire Enclosure

The design of the panel creates a fire enclosure which provides an installation location for line-voltage (Class 1) devices. The fire enclosure provides a barrier that maintains a separation between Class 1 device installation and wiring in the fire enclosure and Class 2 device installation and wiring in the enclosure area with the cover cutouts.

The fire enclosure contains one normal-height DIN rail and does not include cutouts in the cover. The fire enclosure is perfectly suited for devices like the DIN-PWS60 power supply or 24 VAC HVAC transformers (not supplied).

Specifications

DIN Rail Detail

- (6) DIN rails, 18M wide (342 mm x 35 mm);
- (5) Raised DIN rails to allow access to the DIN module through the (5) cover openings;
- (1) Normal-height DIN rail in fire enclosure

Cover Openings

- (5) Cover openings;
- Allows access to DIN modules through the cover opening;
- Class 2 terminations are allowed in this area

Fire Enclosure

- (1) Fire enclosure;
- Separates Class 1 and Class 2 device installation and wiring for Class 1 terminations;
- No cover openings;
- Contains (1) DIN rail, 18M wide (342 mm x 35 mm), normal-height DIN rail

Environmental

- Temperature** 32° to 104° F (0° to 40° C)
- Humidity** 10% to 90% RH (noncondensing)

Construction

- Enclosure** 16-gauge galvanized steel
- Cover** 16-gauge galvanized steel;
Black powder coat finish;
Cover openings for DIN module access;
Hinged, secure with included screws
- Mounting** Surface or flush wall mount

NOTE: Custom framing may be required to flush mount.

Dimensions

- Height** 38.88 in (989 mm)
- Width** 14.38 in (366 mm)
- Depth** 4.44 in (113 mm)

View the DIN-EN-6X18-HC-5OPEN CAD drawing for detailed dimension information.

Weight

- 31.32 lb (14.21 kg)

Compliance

- UL Listed
